### Full Stack Front-End & Back-End Web Developer

I spend the last 8+ years on developing a wide range of Web development. I have strong skills in PHP (Laravel, CodeIgniter, OOP), MySQL, WordPress (WooCommerce) development and customization of the theme and plugin, HTML5, CSS3, JavaScript, Ajax, JQuery, Bootstrap 3.

I have good skills in payment systems integration (Paypal, Authorize.net, Stripe, etc), Adobe Photoshop CC, Adobe Illustrator CC, Adobe After Effect CC and some basic skills Knockout.js, Vue.js, React.js, Node.js, Java and Android Studio. I've worked with many APIs including Google Maps, Authorize.net, PayPal, Currency Converter, among others. I am using PhpStorm, Git, Notepad++, Netbeans, Filezilla, as development tools.

I have experience in developing web applications and hybrid applications in both corporate and startup environments. I'm a full-stack developer who is constantly learning how to make web / hybrid apps faster, leaner, and perfectly designed as client's requirement. Since these last 8+ years of my work history, I have been employed as a contractor at many IT-based companies in Bangladesh.
